

Licensure Disclosures - Surgical Technology

Each state has different professional licensure and certification requirements. Students who are considering an academic program that may allow them to pursue professional licensure in their state are strongly encouraged to check their state's information below and contact the appropriate licensing agency to seek information and additional guidance before beginning a program outside of their state.

For additional considerations and information about other programs, visit Licensure Disclosures.

Contact the Technical College of the Lowcountry Surgical Technology Program for more information.

List by state

Program	State	State Licensure Board	Disclosure
Surgical Technology	Alabama	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Alabama. Students who are interested in working in Alabama should contact the state board before enrolling in this program.
Surgical Technology	Alaska	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Alaska. Students who are interested in working in Alaska should contact the state board before enrolling in this program.
Surgical Technology	Arizona	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Arizona. Students who are interested in working in Arizona should contact the state board before enrolling in this program.
Surgical Technology	Arkansas	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Arkansas. Students who are interested in working in Arkansas should contact the state board before enrolling in this program.
Surgical Technology	California	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in California. Students who are interested in working in California should contact the state board before enrolling in this program.
Surgical Technology	Colorado	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Colorado. Students who are interested in working in Colorado should contact the state board before enrolling in this program.

Surgical Technology	Connecticut	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Connecticut. Students who are interested in working in Connecticut should contact the state board before enrolling in this program.
Surgical Technology	Delaware	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Delaware. Students who are interested in working in Delaware should contact the state board before enrolling in this program.
Surgical Technology	Florida	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Florida. Students who are interested in working in Florida should contact the state board before enrolling in this program.
Surgical Technology	Georgia	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Georgia. Students who are interested in working in Georgia should contact the state board before enrolling in this program.
Surgical Technology	Hawaii	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Hawaii. Students who are interested in working in Hawaii should contact the state board before enrolling in this program.
Surgical Technology	Idaho	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Idaho. Students who are interested in working in Idaho should contact the state board before enrolling in this program.
Surgical Technology	Illinois	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Illinois. Students who are interested in working in Illinois should contact the state board before enrolling in this program.
Surgical Technology	Indiana	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Indiana. Students who are interested in working in Indiana should contact the state board before enrolling in this program.
Surgical Technology	Iowa	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Iowa. Students who are interested in working in Iowa should contact the state board before enrolling in this program.

Surgical Technology	Kansas	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Kansas. Students who are interested in working in Kansas should contact the state board before enrolling in this program.
Surgical Technology	Kentucky	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Kentucky. Students who are interested in working in Kentucky should contact the state board before enrolling in this program.
Surgical Technology	Louisiana	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Louisiana. Students who are interested in working in Louisiana should contact the state board before enrolling in this program.
Surgical Technology	Maine	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Maine. Students who are interested in working in Maine should contact the state board before enrolling in this program.
Surgical Technology	Maryland	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Maryland. Students who are interested in working in Maryland should contact the state board before enrolling in this program.
Surgical Technology	Massachusetts	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Massachusetts. Students who are interested in working in Massachusetts should contact the state board before enrolling in this program.
Surgical Technology	Michigan	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Michigan. Students who are interested in working in Michigan should contact the state board before enrolling in this program.
Surgical Technology	Minnesota	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Minnesota. Students who are interested in working in Minnesota should contact the state board before enrolling in this program.
Surgical Technology	Mississippi	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Mississippi. Students who are interested in working in Mississippi should contact the state board before enrolling in this program.

Surgical Technology	Missouri	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Missouri. Students who are interested in working in Missouri should contact the state board before enrolling in this program.
Surgical Technology	Montana	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Montana. Students who are interested in working in Montana should contact the state board before enrolling in this program.
Surgical Technology	Nebraska	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Nebraska. Students who are interested in working in Nebraska should contact the state board before enrolling in this program.
Surgical Technology	Nevada	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Nevada. Students who are interested in working in Nevada should contact the state board before enrolling in this program.
Surgical Technology	New Hampshire	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in New Hampshire. Students who are interested in working in New Hampshire should contact the state board before enrolling in this program.
Surgical Technology	New Jersey	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in New Jersey. Students who are interested in working in New Jersey should contact the state board before enrolling in this program.
Surgical Technology	New Mexico	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in New Mexico. Students who are interested in working in New Mexico should contact the state board before enrolling in this program.
Surgical Technology	New York	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in New York. Students who are interested in working in New York should contact the state board before enrolling in this program.
Surgical Technology	North Carolina	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in North Carolina. Students who are interested in working in North

			Carolina should contact the state board before enrolling in this program.
Surgical Technology	North Dakota	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in North Dakota. Students who are interested in working in North Dakota should contact the state board before enrolling in this program.
Surgical Technology	Ohio	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Ohio. Students who are interested in working in Ohio should contact the state board before enrolling in this program.
Surgical Technology	Oklahoma	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Oklahoma. Students who are interested in working in Oklahoma should contact the state board before enrolling in this program.
Surgical Technology	Oregon	<u>Oregon Health Authority</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Oregon. Students who are interested in working in Oregon should contact the state board before enrolling in this program.
Surgical Technology	Pennsylvania	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Pennsylvania. Students who are interested in working in Pennsylvania should contact the state board before enrolling in this program.
Surgical Technology	Rhode Island	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Rhode Island. Students who are interested in working in Rhode Island should contact the state board before enrolling in this program.
Surgical Technology	South Carolina	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in South Carolina. Students who are interested in working in South Carolina should contact the state board before enrolling in this program.
Surgical Technology	South Dakota	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in South Dakota. Students who are interested in working in South

			Dakota should contact the state board before enrolling in this program.
Surgical Technology	Tennessee	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Tennessee. Students who are interested in working in Tennessee should contact the state board before enrolling in this program.
Surgical Technology	Texas	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Texas. Students who are interested in working in Texas should contact the state board before enrolling in this program.
Surgical Technology	Utah	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Technology program may meet the educational requirements for licensure in Utah. Students who are interested in working in Utah should contact the state board before enrolling in this program.
Surgical Technology	Vermont	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Vermont. Students who are interested in working in Vermont should contact the state board before enrolling in this program.
Surgical Technology	Virginia	<u>Respiratory Therapy Advisory Board</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Virginia. Students who are interested in working in Virginia should contact the state board before enrolling in this program.
Surgical Technology	Washington	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Washington. Students who are interested in working in Washington should contact the state board before enrolling in this program.
Surgical Technology	West Virginia	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in West Virginia. Students who are interested in working in West Virginia should contact the state board before enrolling in this program.
Surgical Technology	Wisconsin	<u>National Board of Surgical Technology and Surgical Assisting</u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Wisconsin. Students who are interested in working in Wisconsin should contact the state board before enrolling in this program.

Surgical Technology	Wyoming	<u><i>National Board of Surgical Technology and Surgical Assisting</i></u>	The Technical College of the Lowcountry Surgical Technology program may meet the educational requirements for licensure in Wyoming. Students who are interested in working in Wyoming should contact the state board before enrolling in this program.
