## 150% Completion Rates for the Medical Assisting Certificate Program

### About this Report

#### Purpose

The Technical College of the Lowcountry (TCL) 150% Completion Rates for the Medical Assisting Certificate Program Report presents 150% completions rates for the students in the Medical Assisting Certificate program between academic years 2016-2017 and 2023-2024. The 150% Completion Rates presented in this report considers the student a completer if the student confers the Certificate in Medical Assisting Certificate award within a 150% or four (4) consecutive semesters (fall, spring, summer).

#### Data Sources

For this report, data were derived from TCL's student information system course enrollment and graduate records reports on SQL Server Reporting Services and were retrieved on March 24, 2025.

#### Definitions/Terms

##### Medical Assisting Program Study Cohort (Study Cohort)

The Medical Assisting Study Cohort is the Medical Assisting Certificate program cohort which includes students who attempted the following three courses during a single semester fall or spring: 1) MED 103/Medical Assisting Introduction, 2) MED 104 /Med. Assist. Adm. Procedures, and/or 3) MED-112/Medical Assisting Pharma.

##### 150% Completer

A student in a Medical Assisting Program Study Cohort is counted as a "150% completer" if he/she confers the Medical Assisting Certificate award within 150% of program time or within the four (4) consecutive fall/spring/summer semesters.

##### Four-Semester Longitudinal Tracking

Students in the Study Cohort are tracked for four (4) consecutive semesters (fall, spring, and summer). For example, a student in the fall 2018 Study Cohort will be tracked through Fall 2019.

#### Calculation

Total number of Study Cohort students who conferred a Medical Assisting Certificate award within the 150% or within the four consecutive semesters divided by the total number of students in the Study Cohort multiplied by 100%.
